new ball rental

SUITE AS PUNCH

Indah Manis Villa is new to the rental market and sure to make a splash in the villa world. It offers more than your average villa.

Indah Manis Villa is set on the slope of Pecatu looking back to the waters of Jimbaran and Kuta. It was recently launched as a rental villa by Bali Homes Management.

The six bedroom villa, with adjoining, but separate Honeymoon suite, is immaculately furnished and designed throughout with all the comforts and amenities for the perfect holiday stay in Bali. Being owned by experienced food and beverage people, the villa is set and designed to entertain and can be used for large and small functions. According to the owner, the dining/living area can be cleared and organized to sit 120 people plus for a dinner occasion. The kitchen walls can be kept closed or open for either functions or normal use as required. Ideal for Weddings, the Nuptials can spend their honeymoon right on the property when the party is over.

Extensive use of polished and finely finished timber and stonework is a highlight of the design with an excellent horizon pool protruding straight from the entertaining/living area. The effect is like swimming in the clouds. The bedrooms, kitchen and other areas of the dwelling are designed in the typical Balinese pavilion manner but in a modern vernacular.

Privacy and security are guaranteed in Indah Manis Villa, which is built in a secluded, high-end enclave in a fast growing tourist area of Bali. **BBM**
